

July 5, 2016

The July 5, 2016 Hoven Service Club meeting was called to order by Co-Chairperson Francis Karst. Sue presented the past minutes. As Royce was absent, there was no treasurer's report. The minutes were approved by a motion from Lill Glatt with a second to her motion from Carole Stoecker. Motion passed.

Mr. Graham was present to review the HHS building progress. He would like to see the Fall HHS school year begin in the new school, but school may begin in the hospital building for a short time. He also reminded us that he is willing to visit with any person who wishes to see him in his school office, but the school board is in charge of most school related decisions, not himself. He can take any concerns to the board at one's request. Any personnel matters must be addressed to the board.

Old business was then addressed. Faith presented a short update on the Bark in the Park event.

The can bank monies have been received. The amount was smaller than we expected, but as per the vote at our previous meeting, the HSC wrote a check for the balance so that we could donate the \$400, as agreed as per voted.

New business was addressed. The annual HSC sponsored appreciation picnic will not be held in the park this summer. A meal will be held late Fall in conjunction with Harvesting Hoven's Potential for the Future community meeting.

The Service Club wishes to congratulate Alison Simon of Seneca on her newly elected position as State FFA President and to Mr. Spencer Cody on his Alaskan trip taken on research of Ocean Sciences. We'll be anxious to hear future reports from these persons. We welcome Neil Jensen, former Hovenite, as a contributor to the Hoven Review with his 'Fish Tales' articles.

The Service Club will help serve the Potter County Achievement Days meal on August 9. In addition to four volunteer servers, more volunteers will be needed. Discussion will take place at the August meeting.

Joni Abler has visited with some HSC officers and members about working on the Hoven web site to make it more Smart Phone compatible. There will be more discussion on her project at a later date.

Chuck Simon explained that there will be a Rural Summit Seminar in Aberdeen on July 19 and 20. It will relate to running businesses with an exchange of ideas from those present. He would like to see some persons from Hoven attend. He will visit with officers about this meeting and of local interest.

Francis presented an update of the Hwy 47 Main street work being done in Hoven, as well as a report on the airport runway resurfacing project.

Our next meeting will be held on August 1, 2016 at the Hoven Nutrition site at 12:30. Francis entertained a motion to adjourn, which was made by Joann Rader with a second to her motion from Tom Garrity. All Aye, motion passed. Meeting adjourned.

Sue Petersen, secretary
